### Introductory note

#### This introductory note does not form a part of the notice

The following notice gives notice of the variation of an environmental permit.

This variation is for the addition of fourteen waste codes relating to composting in closed systems that are to be applied and utilised at the site as per Appendix B of the PAS100 QP. Waste code 19 12 01 is a non-PAS 100 specified code but has been approved with regards to improving the quality of the end product compost.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
