

# Local First Policy

As part of our commitment to sustainability, and the continued working with the local community, Envar aims to reduce our impact on the environment, stimulate the local economy and support local communities through our activities. We strive to procure sustainable, and ethical goods and services. Envar is committed to increasing the proportion of goods and services that are sourced locally without compromising on cost, quality, or safety and to increase the quantity and quality of jobs created and wealth maintained in the local area.

## Buy Local

We will where practical, procure goods from a supplier within 20 miles of our sites

## Support Small Business

Where available we will purchase our supplies and services from people nearby, the nearer the better and encourage reciprocal trade between our businesses.

## Support Local Charities & Groups

Local Charities and Not for Profits shall receive our support where we can provide help, for example supplying allotments and schools with compost

## Sustainable Suppliers

Where local products cannot be sourced, we will ensure that our suppliers source us sustainable products

## Pride in Our Area

We will take action to keep our area and immediate surrounds clean and tidy. Planting flowers and trees where we can improve the local habitat.

## Educate

From employing graduate trainees to committing to giving talks in local schools, Envar wants to be a part of the community education program and provide opportunities for local residents from childhood to adulthood

### Responsibilities:

**Senior Level:** The Managing Director responsible for ensuring the implementation of these policy aims through the business.

**Site Level:** The site management teams will look at how they can improve their performance against this policy. The SHEQ team will look at how it can be measured and compare it to the company objectives.

**Andy Sibley** - Managing Director
